

**Now offering virtual visits for both new and established patients:**

**SCHEDULE AN APPOINTMENT TODAY**

To meet the needs of our patients and our community, Carolina Heart Center has launched virtual visits options for all of our patients.

As always, our number one priority is the health and safety of our valued patients, and we want to do all we can to keep you healthy and well. Our new virtual visit option allows you to be seen by your Dr Parikh from the comfort of your home. The care you need when you need it.

If you have cold, flu, or potentially COVID-19, a virtual visit with your primary care provider or urgent care is a great place to start to get the level of care you need without potentially exposing others or venturing out while you are feeling bad.

With these virtual video visits now available for all, we are ready to care for our community, whether it's with a virtual visit consult via smartphone or tablet or an in-person visit for emergent needs.

At this time, virtual visits are **covered by insurance**. No payment will be collected at the time of service, but you will receive a bill later on.

All you will need for a virtual visit is **a smartphone or a tablet**. We can help you with the rest!

PLEASE KEEP IN MIND IF YOU HAVE SEVERE SYMPTOMS OR NEED EMERGENCY CARE , YOU MAY NEED TO CALL 911 DIRECTLY.

**Telehealth visits are for both new and existing patients. All you would need to do is to contact our office to get started.**

**Make an appointment today by calling our office directly at 919 881 7770.**
